Computer Networks & Systems Graduate

✉ youssefnahdi95@gmail.com    ☎ +216 29 805 349    📍 Nabeul, Tunisia

## PROFESSIONAL SUMMARY

Recent graduate specializing in Information Technology with a focus on Networks and Information Systems. Experienced in developing solutions that simplify infrastructure management and enhance system visibility. Seeking a work-study opportunity to grow skills in IT infrastructure and cloud environments.

## EDUCATION

**Licence Nationale en Technologies de l'Informatique, Réseaux et Services Informatiques** 2026  
Institut Supérieur des Études Technologiques de Nabeul

## SKILLS

Cloud & Infrastructure

Private Cloud Administration

Virtualization

Infrastructure Monitoring

Containerization

Networking

Routing & Switching

Network Security

VPN Technologies

Development

Python

Java

SQL

REST APIs

Problem Solving

Communication

Teamwork

Adaptability

Attention to Detail

## CERTIFICATIONS

- Cisco CCNA (In Progress)  
Cisco
- Google Developers Machine Learning Crash Course  
Google
- The Linux Foundation LFS101: Introduction to Linux  
The Linux Foundation

## INTERNSHIP EXPERIENCE

**End-of-Studies Project (PFE)**  
Simplified deployment and administration of virtual machines in a private cloud environment within the OpenStack context.

## TECHNICAL PROJECTS

- OpenStack VM Management Portal**  
Technologies Used: React, Flask, PostgreSQL, OpenStack API, Docker.
- Secure Enterprise Network Design**  
Technologies Used: MPLS, VPN, VLAN, Network Security.
- AI Powered Stock Management Program**  
Under development. Developed a web application enabling businesses to efficiently manage stock levels and automate reordering processes.
